

# Grape Virtual Farm Trip

September 27, 2022

**Farmers grow grapes in acres.**

**1 Acre =**  
**1** \_\_\_\_\_

Grape growing season begins in \_\_\_\_\_

March, April, May, or August

Harvest occurs from \_\_\_\_\_ to \_\_\_\_\_

July, August, September, October, or November

**True or False**

Grapes do not need a pollinator to produce fruit

Name two methods of harvesting

\_\_\_\_\_  
\_\_\_\_\_

Deciding when to harvest is determined by:

- A) Variety
- B) Sugar Content
- C) Equipment
- D) Both A and B

List examples of grape by products
